IN RHENISH PRUSSIA

A Terrible Tornado Visits That Country.

VAST AMOUNT OF DAMAGE DONE

Fifty Houses Destroyed and Many Persons Killed and Injured—Destruction Wrought by the Floods in Germany—Power of the Triple Alliance—Other Foreign News.

BERLIN, July 3.—A terrible tornado swept over the Crefeld district in Rhenish Prussia yesterday, and a town of Crefeld booths and a which had been erected for the purpose of a rifle meeting, together with houses, were destroyed. Many persons have been killed and injured, but many is not known. Trees, telegraph poles and wires were prostrated, fences, sign boards and awnings were hurled through the air with incredible force.

Soldiers, policemen and firemen engaged in removing the debris, and it is feared that the number of those killed will be found to be much greater than it is already known to be.

Flood Damages in Germany.
LONDON, July 3.—A Berlin dispatch says that the damage wrought in Germany by the floods is far greater than was originally supposed. In the valley of the Rhine the streams generally overflowed their banks, and carried destruction to many vineyards, besides over-taking and drowning many fugitives who lingered in their flight from the pursuing element. The cost of the destruction is difficult to estimate; but it will certainly take years to restore entirely the devastated places. In Silesia and Westphalia the storm was also most appalling. As a result of the storm, in connection with the Italian earthquakes, there is a strong feeling among the superstitious that something terrible is impending over Europe, and some go so far even as to say that the end of the world is approaching.

Powers of the Triple Alliance.
LONDON, July 3.—A Berlin dispatch to The Daily News says that, as one condition of Italy's adhering to the triple alliance the German government has promised to urge Berlin bankers to assist in relieving the Italian government from its financial embarrassments. The same dispatch declares that it is not the formal adhesion of England to the triple alliance that is looked for in Berlin, so much as a tacit understanding that, in certain contingencies, her support can be relied upon. In case of war the triple powers must rely upon America and British colonies for food and raiment; this will demand an open sea. In addition to this, the combined fleets of Germany, Austria and Italy are confessedly incapable of successfully fighting the united navies of France and Russia.

Will Use Force if Necessary.
LONDON, July 3.—The French movement in the Mekong valley is said here to be only another form of displaying French hatred of English and German influences. Should France be permitted to keep possession of the territory claimed as a part of the kingdom, the terminus of the projected railway from Bangkok to the Mekong valley, would be in French hands. The contract for the building is held by German capitalists, who would hardly care to carry the work to completion with the idea of simply benefitting France. It is recognized that the boundary of Siam are ill-defined but the Mekong valley has never been treated by any possibility apart of the French possessions, and it is said that force will be used, if necessary, to prevent a French usurpation.

Boers Raiding Mashonaland.
CAPE TOWN, July 3.—An expedition of one hundred armed Boers crossed the Limpopo river with the purpose of raiding Mashonaland. They were the advance guard of a formidable trek. The troops of the British South Africa company promptly went out to meet the raiders and succeeded in forcing them back after arresting their leaders.

The Kaiser Delighted With Holland.
AMSTERDAM, July 3.—The Kaiser is delighted with his visit to Holland, and it is reported that he would gladly prolong his stay if his arrangements in England permitted. He has treated the widowed queen Emma with marked gallantry, and it is said that in youth they were very good friends.

Parnell Unfit for Leader.
DUBLIN, July 3.—At a meeting held yesterday the Irish Roman Catholic bishops reaffirmed their former declaration that Mr. Parnell was unfit to be the leader of the Irish people; that he was unworthy the confidence of Roman Catholics, and calling upon Irishmen to repudiate him.

Triple Alliance Signed.
LONDON, July 3.—Emperor Francis signed the triple alliance treaty on Sunday. Dispatches to The Standard from Vienna and Berlin declare that it is substantially the same old treaty, an attempt being made to strengthen trade relations by new customs and commercial treaties.

Several Villages Destroyed.
VIENNA, July 3.—A waterspout in the vicinity of Murati, Styria, destroyed several villages and twelve lives.

Wiped Out by Fire.
BERNE, July 3.—The village of Navette, in the Haute-Pes, has been totally destroyed by fire.

PRIZE DRILLING.

Encampment of the National Militia at Indianapolis.

INDIANAPOLIS, July 3.—Seven companies participated in the competitive maid drill at the national encampment yesterday. The bugle call brought them out for inspection at 9 o'clock in the morning. The companies included the Avon Rifles, Governor's guards, Paris Pickets, Devlin Cadets, Fletcher Rifles, Pugh Videttes and the Dickinson light artillery. After the inspection the Governor's guards were ordered upon the grounds, but the drill was characterized by many awkward movements, owing to the fact that the company is composed mainly of beardless boys who have had but little experience. The Devlin Cadets, of Jackson, Mich., was the second company upon the ground and gave the best drill of the maiden class.

The day at the grounds closed with an exhibition drill by the light artillery of this city, and later in the evening, there was a street review of all the companies present.

The Zouave drill contest has seven companies entered, as follows: Walsh Zouaves, St. Louis; Busch Zouaves, St. Louis; Atlanta Zouaves, Atlanta; Hale Zouaves, Kansas City; Aurora Zouaves, Aurora, Ill.; Farrar Zouaves, Independence, Mo.; and Keck Zouaves, Johnstown, N. Y.

The Second Regiment band, U. S. A., is in attendance, and the following United States army officers are acting as judges in the competitive drill: Lieutenants Rumbugh, Campbell and Breckheimer. Ten thousand dollars will be given as prizes to the artillery, infantry and Zouaves.

The governor's reception takes place today; fireworks on the Fourth. Divine services will be held on July 5, conducted by Rev. Dr. Rendthaller, the captain chaplain.

IT MAY CAUSE TROUBLE.

Two British Subjects Locked Up in a Chilean Prison.

WASHINGTON, July 3.—Valparaiso, Chili, newspapers received by the last mail give an account of a serious complication in which her Britannic majesty's consul general at Valparaiso has become involved. According to the statements put out from British sources the governor of the province, attended by two officials, presented himself at the British consulate and requested that two of the consular clerks might be allowed to give testimony before the chief magistrate on a matter that had nothing to do with the consulate or its business.

Consent being given, the two clerks were hustled into a cab and driven to the public jail, where they were accused of complicity in the escape of the insurgent torpedo boat Guale, and of conveying funds to that vessel in an envelope bearing the consular seal. One of the consular clerks thus arrested was subsequently released, but his companion, at latest advices, was still in confinement, notwithstanding the protest of the consul general, backed by the British minister.

LAY IN BED FOR SIXTEEN YEARS

Just Because His Father Opposed His Marriage With the Girl of His Choice.

CANTON, O., July 3.—Sixteen years ago John Atwood, son of a wealthy farmer near Mount Union, fell in love with a pretty young girl of that town. She was poor and Atwood's father forbade the marriage of the couple, threatening to disinherit the boy if he disobeyed his wishes. John told his father that if he was not allowed to wed the girl of his choice he would take to his bed and stay there until his father's heart softened.

True to his word, he would not leave his room, had to be fed like a child and soon his confinement made him an invalid. For years he remained shut up in his room, his father showing no inclination to give in. Six months ago the senior Atwood died, and upon his deathbed repented and forgave the son, leaving him the estate, which amounts to a neat sum. John has now brightened up and is recovering his strength. His sweetheart, who had remained true to him during these years, is still living, and the couple will be married shortly.

"CRAZY DUTCH COONEY."

He is Locked Up in the Indianapolis Jail for Pension Law Violation.

LOGANSPOUT, Ind., July 3.—John Conrad Miller, who is in jail at Indianapolis, charged with violating pension laws, lives near this city in a little hut, alone. He is known by everybody as "Crazy Dutch Cooney." He comes to this city every week, and after taking a few drinks gets a position on some street corner and tells the passers by that the United States government owes him a million dollars, and that a lawyer is wanted to collect it.

Some wag at once sends him to some prominent attorney and the police have to be called to have him thrown out. Then some one will give him an order on some county or city officer for a million dollars, just to see him try to get it. Miller is always anxious to make a speech, and many a box and barrel have been kicked from under him while he was talking about his pension. It is thought that he is innocent of any crime as charged, as he cannot read or write English, and that some job has been put up on him.

Startling Grand Jury Work.

ST. LOUIS, July 3.—Information has reached here that the United States grand jury in session at Springfield, Ill., has returned some indictments for violations of the interstate commerce law. It is said that among those indicted are a prominent freight official of the Wabash railroad, an official of the Grand Trunk railway, and a member of a flouring mill in this city. Mr. J. B. Kehlor is the flour magnate against whom indictments have been found.

RAIN TO ORDER.

It Can Be Produced By Frank Melbourne.

THE RAIN KING INTERVIEWED

He Only Charges Three Hundred Dollars and Can Cover an Area of Two Hundred and Fifty Thousand Square Miles. Tests That Have Heretofore Proved Successful.

CINCINNATI, July 3.—An evening paper publishes the following interview held with Frank Melbourne, the rain wizard, at Canton, O., Monday evening. Late this evening, during a drizzling rain, your correspondent called on Frank Melbourne, the storm wizard, at his quarters in the Hotel Yohe. Melbourne, who is the busiest man in Ohio just at present, could not be seen at the noon hour, being then engaged in the undertaking of bringing a storm, he said, and too busy to spare time for an interview. To the pater of the rain upon the roof, the wizard bid the correspondent be seated.

As a prelude to the conversation, and no doubt indicative of his powers, Melbourne pointed his finger upward, where the rain was playing a tattoo upon the roof, and said: "This is the rain I was advertised to bring. It was booked for Tuesday, but, owing to the condition of the atmosphere it came a day sooner than was expected. It takes from a day to two days to bring a storm. I began on Sunday to start this one, expecting it to be here on Tuesday, but you see it got around a little in advance."

"How do you produce these rains?"

"That is a secret I hardly dare divulge beyond saying it is the infusion of certain chemicals in the air through a machine of my invention."

"How long have you been engaged in this occupation?"

"I began to work on my machine twelve years ago last September and soon after brought the first rain. I was then in Australia. I made twelve experiments in Queensland and New South Wales, all of which were successful. A rain can be brought there more rapidly than here, being closer to the sea and not so hilly."

"The formation of the land there has something to do with the bringing of a rain?"

"Oh, yes, considerable. The nearer to the sea and the more level the land the sooner a rain can be started. One day was all the time needed there."

"What are your charges for bringing a real good shower?"

"Three hundred dollars is all I ask, and that not to be paid until the rain is produced. This is much cheaper than most experiments of the kind are made."

"How large a territory can you cover?"

"About two hundred and fifty thousand square miles."

"Are your storms all electrical and accompanied by thunder and lightning?"

"Not at all. That depends upon the condition of the atmosphere at the time it is produced."

Mr. Melbourne at this time felt that his presence was required at his office, where the rain machine was then at work, and begged to be excused, handing the correspondent the accompanying circular, which, he said, would throw some light upon his invention.

Mr. Melbourne is a rather tall and slender man, decidedly nervous and thoroughly in earnest regarding his experiment as an actual fact as he regards it now. Whether there is any truth in his assertions or not, he is the biggest Roman of them all at present, and managers of picnics and outdoor sports consult this modern oracle before determining upon the date.

STORM IN MISSOURI.

Several Houses Blown Down and Two Persons Reported Badly Hurt.

KANSAS CITY, July 3.—Dispatches received at Kansas City this morning from Blairtown state that a heavy rain and wind storm swept over that town about midnight last night and did very serious damage. Several houses were blown down and two persons are reported badly hurt. Several others were more or less injured.

The wires are still down so that it is impossible to get any definite reports from the storm. The depot, a large substantial frame building at Landis station, on the Kansas City, Osceola and Southern railroad, was blown off its foundation and seriously damaged. The rain was a terrific one, and the lowlands are covered with water. The storm came from the northeast and was about three-fourths of a mile wide. There was great damage done to the crops and fruit.

Cyclone in Iowa.

BOONE, Ia., July 3.—A cyclone which struck the town of Gray, in Audubon county, last evening, demolished a number of houses, injured crops and did other damage. At Halibur, one man was killed. A heavy hailstorm also prevailed throughout Audubon county, lasting twenty minutes, doing much damage to crops and window panes, especially in the vicinity of Great Arcadia and Westside.

BALTIMORE, July 3.—Mrs. A. C. Valenilla, who was the only surviving child of Adjutant James Lowry Donaldson, killed at the battle of North Point, died yesterday at the St. James hotel in this city where she has lived for many years. She was over eighty years old. When a young woman she was married to Mr. Valenilla, who was minister from Venezuela at Washington. She was prominent in society half a century ago. She lived in Venezuela for many years. On her way there for the first time, she was captured by pirates and held until ransomed.

BOND EXTENSION.

Secretary Foster Issues a Circular Relating to the Four-and-a-Half Per Cents.

WASHINGTON, July 3.—The following circular extending the four-and-a-half per cent. bonds at 2 per cent. interest has been issued from the treasury department:

In pursuance of the reservation contained in the circular of June 2, 1891, whereby the bonds of the four-and-a-half per cent. loan were called for redemption on and after the second day of September, 1891, public notice is hereby given that any of the bonds of the said loan may be presented at this office on or before the second day of September next, for continuance during the pleasure of the government, with interest, at the rate of 2 per cent. per annum in lieu of their payment, at the date above specified.

Bonds presented for continuance should be accompanied by a request substantially in the form herewith prescribed and upon the surrender of the bonds, with such request, the secretary of the treasury will return to the owners registered bonds of the same loan with the fact that such bonds are continued during the pleasure of the government with interest at the rate of 2 per cent. per annum, stamped upon them in accordance with this notice.

Upon the receipt of bonds, to be continued as above provided, the interest thereon to Sept. 2, 1891, will be prepaid at the rate the bonds now bear.

Registered bonds to be continued should be assigned to the secretary of the treasury for continuance, the assignments being duly dated and witnessed by one of the officers indicated in the instructions printed on the back of each bond.

The department will pay no expense for transportation on bonds received under the provisions of this circular, but the bonds returned will be sent by prepaid registered mail unless the owners otherwise direct.

CHARLES FOSTER, Secretary.

A copy of this circular will be mailed to each holder of registered bonds, and blank forms of request with blank resolutions for the use of officers of institutions will also be forwarded.

"DEATH VALLEY" UNDER WATER.

A Marvel of Nature in Southern California.

SAN FRANCISCO, July 3.—The state of California is adding another to her many wonders. The southern portion of the state is being transformed into a great inland sea. The lake at Salton, the lowest point of the Colorado desert, which began to form about one week ago, is now a vast body of brackish water, thirty miles long by twelve miles wide, and is fed by a stream which flows at a speed of four and one-half miles an hour.

There has never been anything like this amount of water at Salton during the time of the white man, but the Indians have a tradition that many long years ago the waters rose in a similar manner and drowned large numbers of their forefathers. This tradition is thoroughly believed by the desert aborigines, and almost without exception they have taken to the high hills surrounding the basin.

This whole region was once under water, and the water-line can be seen high up the mountain side. Within the memory of man, however, it has been entirely dry, with the exception of a little pool of brackish water at the salt works.

The source of the mysterious inflow of water remains a mystery, although the general belief is that it comes from a break in the banks of the Colorado river near Yuma.

BLAINE RECOVERING.

His Physician Thinks He Will Be Well Again in Autumn.

BAR HARBOR, Me., July 3.—Secretary Blaine was not as well yesterday as he was the previous day, although he took his customary ride and a short walk. He is by no means a well man, and his bad spells last for a day or two, but there is no reason why he should not be well and strong by autumn.

Dr. Taylor, his physician, says he has no organic disorder, and is rapidly recovering his unusual health. He eats well, sleeps well and takes no medicine excepting simple remedies to regulate digestion. He has no trace of the paralytic affection from which he suffered three years ago. Mr. Blaine is despondent, and the principal benefit which his physician can render him is to encourage him and tell him what to do.

Many people here believe, despite the statements of his physician and the denials of his family, that Mr. Blaine is broken down and that he will never again engage in active life. It is evident, however, to every one that he has greatly improved since his arrival here.

BARDSLEY SENTENCED

To Fifteen Years in the Eastern Pennsylvania Penitentiary.

PHILADELPHIA, July 3.—Ex-City Treasurer John Bardsley was brought into court Thursday morning and sentenced to fifteen years solitary confinement in the Eastern penitentiary. He was also sentenced to pay a fine equal to the amount of the embezzlement to which he had pleaded guilty.

Steamboat Sunk.

NEW ORLEANS, July 3.—News is received here of the sinking of the Southern Pacific company's steamboat Helen Mead in the Gulf of Mexico while being towed from here to Nicaragua, where she was to run on the Bluefields river as a fuel transport. The crew was taken aboard the steamer which was towing her.

STATE FINANCES.

The Deficit Will Soon Be Wiped Out
Now by the Bank Taxes.

A special from Frankfort says: "That the financial affairs of the State of Kentucky are in good hands can not be doubted when Treasurer Hale's statement of the past fiscal year, is read and properly considered.

"He says that the total overdraft on the Treasury, or, in other words, the total deficit, as shown by the books of his office and confirmed by the books of the Auditor's office, is \$224,708.92. This deficiency, as it is well known, was caused by the reduction of taxes at the last session of the Legislature from 47 1-2 cents to 42 1-2 cents on the \$100, and by the very large amount paid out for the Constitutional convention. Unlike the money in the United States Treasury, which has been squandered and stolen, the tax-payers of Kentucky have the satisfaction of knowing that though there is a deficit in the State Treasury the money that made up the deficit is still in their hands and was not taken from them by the State, in the reduced five cent taxes, to meet the State current expenditures.

"This deficit, however, has not in the least affected the credit or the honor of the State. The arrangement made with the banks by Major Hale with the advice and consent of Governor Buckner and the Sinking Fund Commissioners has not only proved a judicious step to meet such emergencies and prevent a delay of three or four months or more in the payment of claims against the State, but it has also proved to be a source of revenue which will more than pay the salaries of both the Treasurer and his clerk. At the end of the first fiscal six months, ending December 31, 1890, the State received in interest from the banks \$4,832.17. The interest credited in six months ending June 30, 1891, was as follows: Farmers' Bank, of Frankfort, \$500.46; Branch bank, of Frankfort, \$528.70; State National Bank, of Frankfort, \$81.88; First National Bank of Mayfield, \$53.60. Making the total interest for the year ending June 30, 1891, \$5,996.81.

"The interest charged on overdrafts ending June 30, 1891, was as follows: Farmers' Bank, \$834.96; Branch Bank, \$788.32; First National Bank, \$120.02.

"The net interest realized by the State on revenue in the Treasury for the year ending June 30, 1891, was, therefore, \$4,253.51.

"This deficit \$224,708.92 will not exist very long, for the banks will pay into the Treasury within the next four days over \$150,000, and the Sheriffs turn in during the same time more than enough to shift the balance to the other side of the account, and leave a surplus by the end of the month, on which the interest will again begin to accumulate."

The Carlisle Mercury now actually accuses the Courier-Journal of being afraid to express an opinion. What great changes a few weeks work.

An account of Wells & Biggers for \$1.50 for phaeton, and also an account of R. B. Lovel for \$13.50 for groceries were also allowed and ordered paid.

A communication was read from the Louisville Artificial Stone Company giving estimate of the cost of paving Market Street Space. The figures varied from about \$1,700 to \$2,200. The matter went over until next meeting and it will likely be postponed indefinitely. Several members thought the condition of the city finances would not warrant such an expenditure now.

The question of improving Maddox avenue was referred back to the committee with power to act.

An ordinance regulating the piling of lumber within the city limits was read,

and adopted under a suspension of the rules. It takes effect at once, and the penalty for a violation of same is a fine of from \$5 to \$25.

Mrs. Denny Burns was allowed \$1 a week to pay her house rent.

The Committee on Internal Improvement was authorized to grade and improve Strawberry alley for half a square east of Commerce.

The committee was granted further time to prepare an ordinance regulating all licenses. They had agreed on rates for liquor license and some other matters, but did not report the amounts.

Postmaster Davis appeared and called attention to the fact that the free delivery service would probably be placed in operation here soon, and that the marking of streets and numbering of houses was first necessary. He had prepared an ordinance for that purpose. It was read and received, but on motion of Mr. Newell it was referred to the Committee on Laws and Ordinances. It proposes to change the name of Main Cross street, called Market, to Central avenue and to number the houses east and west from that street.

The Committee on Ways and Means was authorized to borrow \$2,500 for current expenses.

Some other business of minor importance was disposed of, after which Council adjourned.

O. H. P. Thomas & Co. New Grain Firm.

Having recently purchased, and will obtain possession of same on July 1st, the large grain warehouse corner Third and Sutton streets (formerly occupied by A. Finch & Co.) we will conduct the grain business at this location, paying the highest market price for grain of all kinds, at all times. We are supplied with 20,000 of the best new cotton sacks and can furnish farmers this kind with which to thresh and deliver their wheat. We are prepared to receive wheat on storage, and when desired make liberal cash advances on same at low rate of interest. O. H. P. Thomas & Co. j30dft Corner Third and Sutton streets.

A Deaf Mute's Industry.

Ed. L. Jones, a deaf mute, is selling a compound that instantly removes all kinds of dirt and stains, such as grease, paint and fruit stains from clothing and carpets. It is certainly a good article, and is only ten cents a package, which makes it within the reach of all. He is an industrious young man and worthy of patronage, as he has an aged mother to support. He will call upon citizens at their residence. j2d3t

No Local Freight Trains To-morrow.

Mr. E. D. Hotchkiss, General Freight Agent of the C. and O., has had notices posted at all stations that local freight trains will be suspended for July 4th. Agents have been notified not to receive any local or perishable freight or live stock on the 3rd and 4th.

Timely Advice.

Now is the time to provide yourself and family with a reliable remedy for bowel complaints. It is almost certain to be needed, and no family can afford to be without it. It costs but a trifle and may be the means of saving much suffering, if not life. There are many different remedies in use, but Chamberlain's Colic, Cholera and Diarrhoea Remedy is undoubtedly the best. Twenty-five and 50 cent bottles for sale by Power & Reynolds.

RETSEF MINING SALT CRMPANY'S ROCK LUMP SALT FOR CATTLE

To FARMERS, STOCK-RAISERS and OTHERS:

It is not generally known that the use of common loose salt for cattle, horses, sheep and hogs, is injurious to them, but such, however, is the fact. Their nature requires only so much salt as will be absorbed by the saliva. By the ordinary method of salting, more or less of the loose salt is carried undissolved into the stomach, causing irritation to the membranes and coating. In many well authenticated instances the death of sheep, and attacks of colic and other difficulties in horses and cows have been traced to this cause. It is very desirable, therefore, that some method of salting stock be employed. The most suitable form of salt for this purpose is furnished by nature in the Rock or Mineral Salt, and the best possible method of supplying it to stock is to place lumps of it in the mangers and other places where it can be easily reached when required by them. It goes four times as far as common salt, and is cheaper at any reasonable price. Any stock will do 20 per cent. better by using our Rock Salt. They do not have that terrible thirsting for water caused by using common salt, which contains large quantities of lime and magnesia, our salt being the only salt known free from these impurities.

Hicks, the weather seer, in his predictions for July, says: "About the 5th and 6th, a low barometer will cause an oppressive warm wave. The presence of the new moon added will cause storms on the 5th to 6th. Cooler air and fresh ozone will bring a 'breathing spell' until about the 10th, when it will begin to grow very warm, culminating in excessively high temperature and storms about 11th, 12th and 13th. Another breathing spell may intervene before the reactionary movements on and next to the 17th. From 23d to 26th is the next period of storm and change. Among the hottest days of summer about this time. Mercury is on the 26th, and will add cloudiness and mugginess up to reactionary days, 29th and 30th. Possibly cooler about 25th, 26th and 27th."

IF YOU WANT TO KNOW WHERE ALL THE PEOPLE GO,

Get into line with the surging crowd and they will bring you right to our house, and if you want to see all the people at their homes in a radius of twenty-five miles from Maysville, in Kentucky and Southern Ohio, just fall in behind the Red Letter Bundles that leave our door and follow them to their destinations. Why is this? A wise man is credited with having originated this maxim: "You can fool some of the people some of the time, but you can't fool all the people all the time." Some of the people have for a long time been fooled in buying Shoes; they have found that in dealing with credit houses they have had to pay not only for their own Shoes, but for the Shoes worn by other people as well, for the credit merchant makes the paying customer pay the accounts of his delinquents also. And then where the customer has been running an account he had to take—not what he always wanted, but what he could get, because the credit merchant had him under obligations to him. Now the people have learned wisdom. They have found that by coming to our house they not only find every style the genius of the shoemaker has invented, and the best qualities that the best material will give, but they are assured of getting true fits, and at the same time **SAVE TWENTY-FIVE CENTS ON EVERY DOLLAR** they spend with us. These are the reasons why the people crowd our Shoe house by day and keep us busy far into the night time. Come and see us; we will save you money. We challenge comparison and defy competition.

EVERY member of the Christian Church is urged to be present at the services Sunday morning at 11 o'clock. The first anniversary of the pastorate of Rev. C. S. Lucas will be celebrated. Full reports of the work of the church the past year will be made, and the members should make it a point to be present and hear these. The finances are in excellent condition. Rev. E. L. Powell, of Louisville, formerly pastor of the church, will probably preach at night. The public invited.

MINER'S MAXIMS.

THE resemblance between Promise and Performance is very often limited to their alphabetical endings and beginnings.

An unfulfilled promise is as badly and irrevocably fractured as a shattered egg shell. The time to reflect is when you are making it, for reflection may not serve your purpose afterwards.

Whatever we say in printer's ink, is, in our judgement, as binding upon us as though an affidavit backed up every word of it.

Of course we make a specialty of Shoes of the best quality, but less superior grades receive as conscientious care at our hands as though they had the glitter and brilliancy of that aristocrat of the trade—polished leather. There is this distinguishing feature about them all: They always realize your expectations and frequently surpass them.

We don't often make mistakes, and if we did we would rather make them in your favor than ours.

AWAITING THE SHOCK.

Four Condemned Men Shortly to Die in Sing Sing Prison.

SING SING, N. Y., July 3.—The murderers, Smiler, Slocum, Wood, colored, and Jugiro, Japanese, who are under sentence to die by electric shock next week, and who have not, like their two fellow condemned, McElvaine and Prezsa, succeeded in obtaining further delay, are awaiting death with apparent calmness. Slocum, the wife-murderer, says that his lawyer has only two days more in which to "get in his work," as he expresses it. "I guess it's all up this time, and I'm glad of it. I don't want any more fooling. I'd rather have it over."

Jugiro, who killed a fellow countryman, and who is said by a New York newspaper to have gone insane, is apparently merely low spirited and dazed by the approach of his terrible end. The prison officials say that there is no ground for a deferment of execution in his case on account of his mental condition.

Wood, who killed an Italian fellow laborer on the New York aqueduct, is, as usual, very quiet. He reads, smokes, and sits thinking, but rarely says a word.

Smiler, the Salvation Army officer who killed one of his three wives because she left him on account of ill-treatment, talks continually, protesting his innocence, and complaining in a whining way of his fate.

All is quiet at the prison today. Warden Brown is consulting with state officials at Albany about details. When he returns the machinery will be tested by scientists. Nothing can be learned as to whom invitations to witness the executions have been issued.

In an interview the warden said: "I shall carry out the law to its last letter, and I shall give no information to the press other than that the execution took place at a certain hour."

The correspondent interviewing the warden said: "Well, are you going to have newspaper men at the execution?"

"Not one," he replied calmly. "I shall be personally acquainted with every witness and I have already refused both press associations. The World, The Times and The Herald admittance. The law shall be implicitly obeyed and no newspaper reports shall come from inside of my prison walls. The information which the law allows shall be given and that is all."

The electrical execution law to which Mr. Brown refers prescribes that only the bare fact of an execution shall be printed, and to publish details is a misdemeanor.

Warden Brown is evidently determined in the matter and says that he will even swear his jury to secrecy. It is believed that he is supported by higher state authorities and the earnest request of Elbridge T. Gerry, of New York.

Another Fidelity Dividend.

CINCINNATI, July 3.—Receiver Armstrong, of the Fidelity National bank, has on hand sufficient money to pay a dividend of 5 per cent. and is waiting for authority from the comptroller of the currency to make the payment. After this distribution has been made a total of 50 per cent. on the defunct bank's indebtedness will have been paid. There will then not be more than enough outstanding collectable claims to pay another 5 per cent., making the total amount that creditors will have received out of the wreck 55 per cent. The next dividend will be paid within sixty days, and the last one shortly thereafter.

His Scheme Failed.

LAGRANGE, Ind., July 3.—John H. Weirick induced John Rose, a wealthy citizen, to accompany him to Shipshewana, on the pretense of buying a \$2,000 note for \$2,000. En route Weirick dr. his revolver and assaulted Rose, demanding his money, but it developed that Rose depended upon the Shipshewana bank to advance the funds necessary for the proposed purchase, and had none with him. Weirick then struck Rose a murderous blow over the head and attempted to escape, but he was pursued by officers, and he is now in jail on charge of assault with intent to kill. Weirick is a disreputable character, who recently drove his young wife to suicide by brutal treatment.

Policeman Shot by Safe Crackers.

MANSFIELD, O., July 3.—At 12:30 yesterday morning Officer Moser apprehended two safe crackers about to begin operations in the office of W. B. Carpenter's tannery, on South Diamond street. When the robbers found they were being run down they opened fire on the policeman, who was shot in the thigh and the robbers escaped. Surgical aid was summoned, but all attempts to locate the bullet were unsuccessful. The wound is quite serious.

The "Sea Serpent" Heard From.

BOSTON, July 3.—Captain Floyd, of the schooner Abano, has brought a letter to St. John, N. B., from Captain J. W. Lawler, who is crossing the ocean in his dory, the Sea Serpent, in which he says he is well and in good spirits. The letter is dated "Ninety-five miles off Boston light, June 24." Captain Floyd spoke the Sea Serpent that day.

Sight Restored by Prayer.

JEFFERSONVILLE, Ind., July 3.—For many years Robert Jones, a farmer, aged 70, of Blue Lick, has been blind, and he had given up hope of securing surgical relief. Several days ago his wife fell dangerously ill, and in his distress he prayed and wept incessantly. Suddenly his sight came back to him, and he now sees as well as he ever did.

Proved His Innocence.

LONDON, O., July 3.—The return of James A. Brock and his cousin, Frank Woosley, from Fort Griffin, Tex., has caused a sensation. Brock was tried for the murder of Woosley, who suddenly disappeared in 1877. Brock expended much money and time to locate him, and brought him to Ohio to prove his innocence to Ohio friends.

Gideon Marsh in Chicago.

NEW YORK, July 3.—A special to The World from Chicago says that Gideon Marsh, the fugitive ex-president of the Keystone National, arrived there yesterday afternoon, and his arrest is hourly expected.

OUR NEIGHBORS.

ORANGEBURG.

The berry crop is abundant this year. Miss Cora Luman is visiting friends and relatives in Maysville. The Tolle-Cooper trial has been indefinitely postponed. Mr. Enoch Sexton has returned from a visit to friends in Illinois.

Miss Kate Mayhugh is visiting her sister, Mrs. Tully, of Mt. Carmel. Mrs. James Anno received a fall several days ago and severely sprained her wrist. She has the sympathy of her friends.

Miss Rella Cooper has returned from a visit to relatives and friends in the Rectorville neighborhood. Rev. Mr. Hill preached at the M. E. Church Sunday afternoon. The weather being favorable the attendance was large.

Mrs. A. B. Mayhugh was recently called to the bedside of her mother, Mrs. Pristoe, who has been ill for two years. She is afflicted with dropsy and heart disease.

Rev. A. E. Zeigler, of the Christian Church, has returned from Indiana where he has been engaged in a most successful meeting. Brother Zeigler anticipates visiting his home in Maryland, this summer.

The Christian Church here has recently received numerous repairs, and with new rostrum, carpet, and chairs presents quite a pleasing appearance. Sunday night before the opening of services, a chandelier fell causing great fright, but no serious damage, as the lamp exploded, but were first thrown in the street.

SARDIS.

The Misses Bland, after a three-weeks outing, have returned to their home on "The Highlands," improved in interest and vivacity. The trip was made on the steamer Ohio, Captain Marr. They were chaperoned through the interesting parts of the cities of Louisville, Evansville, Cincinnati and Cairo, and handsomely entertained while visiting Memphis by Mrs. E. R. Landstreet. The South was in its bright June garb, the cat-alpas and magnolia in full bloom. The fine music on board the boat, the charming river scenery, the evening dances, promenades and games made the excursion thoroughly enjoyable. A trip to New Orleans is promised the young ladies next summer by their gallant and generous friend.

Those who have visited the Wilson monument in Mayslick cemetery—and it has become the principal attraction since the BULLFINCH pen and ink photo of it—have doubtless observed the accidental omission of the name of Priscilla Wilson, born 1738, died 1866, wife of Warner Wilson and mother of the three sons, John T., Jasper S. and Jabez, who sleep by her side. She was a Scotch-Irish, one of the old and proprietary families of Mason County, and a sister of Mrs. Lydia Mitchell, Mrs. Anna Koff and Mrs. W. N. Stewart, all of whom lie in undisturbed repose in the old village burial ground. The writer hereof knew them all, and their names are on the monument. Their children rise up and call them blessed.

SHANNON.

The fourth double burial at the same hour of the day occurred at Shannon cemetery at 5 o'clock Sunday evening, June 28th. Henry Stevenson, son of Eli Stevenson, and son-in-law of Robert Gault, aged thirty-one, and Wm. T. Dye, aged sixty-eight, were buried at the same hour. Mr. Dye was laid to rest with the honors of Masonry, his funeral preached by Rev. Jolly. Mr. Stevenson's funeral was preached by Dr. Anderson. The friends and relatives of both parties turned out largely to pay the last tribute to the departed.

THE MARKETS.

Cincinnati Tobacco Market.

(Wednesday.)

The offerings at auction were 741 hds, classed as follows: 210 hds Mason County (Ky.) District; 171 hds Pendleton County (Ky.) District; 92 hds Owen County (Ky.) District; 84 hds Blue Grass (Ky.) District; 184 hds Brown County (Ohio) District, and 6 hds West Virginia.

With large offerings there is no marked change to note in the market from the preceding day. There was a fair display of good and fine leaf, and for these grades there was a firm, active demand, and full prices are paid. Medium leaf shows a steady demand. Colory trash or lugs are active and sell at full prices. Common trash and lugs are unchanged from former reports, the demand being limited and prices low.

The Globe Warehouse sold for account of Mr. L. A. Armstrong 2 hds fine leaf at \$26 to \$28; Messrs. Malone & Co. 1 hhd at \$26.50, Mr. W. F. Webb 3 hds at \$20 to \$22, Mr. B. E. Willis 1 hhd at \$21, Mr. W. G. House 1 hhd at \$22.25.

At the Cincinnati Warehouse 1 hhd fancy leaf sold at \$35.25.

Of the 741 hds, 94 sold from \$1 to \$3.95, 117 from \$4 to \$5.35, 135 from \$6 to \$7.50, 83 from \$8 to \$9.80, 184 from \$10 to \$14.75, 105 from \$15 to \$19.75, 22 from \$20 to \$24, and 4 at \$26, \$26.50, \$28, \$35.25.

Buffalo Express: In order to fight flies successfully a cow has to make a good many flank movements.

Philadelphia Times: Give the army worm credit for one good quality. It isn't clamorous for a back pension.

Washington Post: Students of floriculture have placed eyeglasses among the popular noze-gaze in Boston.

Baltimore American: People who are always wishing for some other kind of weather are getting it this year.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

RUGGLES' CAMP MEETING.

The time for holding the meeting on these well improved and beautiful grounds will be from July 30 to August 10. Eminent clergymen will be present—men of learning and popular talent. Among them will be the Rev. Dr. Hartzell of New York, of the Southern Educational Society, and Rev. Dr. Robinson, D. D., of Union Church, Covington. All other ministers of the district are expected to be present. The Children's Chapel will be in charge of Rev. J. S. Young, of Nicholasville. Professor W. G. Bloom and L. G. Strode will have charge of the music, assisted by a splendid choir. The privileges have all been rented to responsible persons—hotel and stables to Geo. W. Dale; confectionery to Plummer & Cadwallader; baggage and barber shop to John Jaeger. Omnibuses connecting with boats and trains under control of Politt & Barbour; fare, 50 cents. Admission, 10 cents. Anyone too poor will be admitted free. Rev. Amos Boring, Presiding Elder, will have charge of the meeting. Captain Hedlin and W. B. Dawson, of Maysville, will see that good order is maintained. Anyone desiring rooms or cottages write I. M. LANE, Maysville, Ky.
